

AMERICA'S FLYWAYS

Grass roots general aviation – that's what *America's Flyways* is all about. With a readership estimated at 20,000 *America's Flyways* is the way to take your business to new and exciting horizons. Our magazine can be found in the homes of general aviation pilots and aircraft owners who subscribe to our magazine across the country, and our readership continues to grow strongly each year.

Many of these aviation enthusiasts are members of various local state, regional and national pilot and aviation organizations covering the nation from Alaska to Massachusetts. To you, the advertiser, this means *America's Flyways* is not only reaching the grass roots pilot and aircraft owners but is being read by men and women aviators who are active in aviation beyond their own flying.

Various pilot shops and FBOs across the country also receive *America's Flyways* to distribute freely at their locations. There is nothing more grass roots than airshows and fly-ins. *America's Flyways* can be

found at events from Sun N' Fun to Oshkosh, and from the Copperstate Fly-In to AOPA Expo as well as all USPA meetings.

Even more importantly, *America's Flyways* provides its readers insightful articles written by experts, striking photography and columnists who are looking out for the future of general aviation. Every month you can look forward to columns like our Featured Destination, featuring exciting places to vacation and take your plane to, and It's the Law, detailed information geared to keep you safe and in the sky.

I invite you to advertise your product or services

in *America's Flyways* and be among those who support our great national resource: Aviation.

You can also visit our web site at www.Americasflyways.com and see the key to reaching thousands in today's most affluent community – Aviation! Your company can advertise on our web site as well as in our magazine.
